

Report on semen collection and cryopreservation at EBS Hisar

A team comprising Dr T R Talluri and S K Ravi was deputed by the Director, ICAR-NRCE, Hisar to collect and cryopreserve the semen from exotic stallions and exotic jacks located at EBS, Hisar. The team visited Equine Breeding Stud, Hisar on 22nd - 23rd November 2017. The team collected and cryopreserved the semen successfully from stallions and jacks. A total of 250 straws of exotic stallion semen and 405 straws of exotic jack semen were cryopreserved successfully and the technology of semen cryopreservation was transferred to the officers at EBS, Hisar.
