

ICAR-NRCE participates ICAR Institute-SAU-Development and Stakeholder Interface at ICAR-NDRI, Karnal

ICAR-National Research Centre on Equines, Hisar participated in ICAR Institute-SAU-Development and Stakeholder Interface on “Farmers and Industry Participation in Agricultural Growth” at ICAR-National Dairy Research Institute, Karnal on October 18, 2014. ICAR institutes from northern region participated in the Interface. On this occasion NRCE exhibition stall was organized in ICAR Institute-SAU-Development and Stakeholder Interface at NDRI, Karnal. NRCE Exhibition stall was visited by Vice Chancellors of State Agricultural and Veterinary Universities, Directors of ICAR institutes accompanied by Director NRCE. The NRCE exhibition stall displayed information on different breeds of horses, information on different aspects of equine husbandry and management and technologies, vaccines, and diagnostic kits developed at NRCE for information dissemination among visitors and farmers. Information about institute activities and technologies developed at NRCE was given to visiting dignitaries and officials at the NRCE exhibition stall. Extension literature on equine husbandry was provided to farmers.
